There's an important feature to RIDGID-Supreme Chucks that every shop instructor should know about. Of leading brands available only RIDGID-Supreme *case hardens every part* inside and out. It makes a chuck more difficult to build. And it makes it more difficult to damage or destroy. RIDGID-Supreme . . . easier to use because it's harder.

To double power drill usefulness, attach a
Versamate
Speed Reducer

Here's a truly great aid—both for teaching and for getting work done. Versamate drives screws, big or little, with ease you can't believe. Students like it. Shop teachers have tested it—approved it unanimously. Try Versamate. See how 7-to-1 speed reduction makes a power drill seven times more powerful.
